The Solar Feminine was birthed on the planet on June 3rd, 2012 when Venus visibly crossed the face of the Sun for the last time in our lifetime.

The Sun and Venus together are the union of Fire and Water, Eros and Heart, Light and Love, Source and Body.

A new cycle begins January 8, 2022, when Venus and Sun unite at 18° Capricorn and create a new Venus Star Point.

The Initiating, Feminine, Earth archetype of Capricorn will infuse the entire 19-month cycle.

Solar Feminine continues to be anchored as we move deeper into the Age of Aquarius. Uranus, the Great Awakener, in Venus' sign of Taurus until 2026 underlines the importance of Venus at this change of ages. In 2022, the North Node representing the north star of our collective evolution moves into Taurus, further emphasizing the power of Venus at this time. The revolution is IN. Great changes will come as we embody more love.

The Solar Feminine teaches us Heart-Centered Leadership; how to risk living in the present moment, how to stabilize in the unknown, consider all possibilities until we receive clarity, and then take the right action for us. We lead by trusting our heart's intelligence above all else.

In the Venus in Capricorn cycle, the sacred feminine takes her throne and puts on her crown. Here, she is the Queen of Integrity and enjoys the Pleasure of Manifesting. Her throne is her knowledge of the Earth's intelligence gained through her humbling to nature's principles. Her crown is her cosmic wisdom as an infinite being. She is us.

In this cycle, we are invited to learn the power of saying "NO" to what is not right, claim the full authority of our heart's wisdom and take responsibility for creating the world we want our grandchildren to live in. We are seeding the New Earth - a culture based on care, interconnection, reverence for life, and the natural world. Together, we will be initiated into the Capricorn Mysteries and discover our role in this Great Turning.

The monthly New Venus Portals (Moon-Venus conjunctions) are marked on the Venus Cycle map with their symbols, dates and the degree of the meeting. The New and Peak Venus Portals (Moon-Venus oppositions) are on the day in the calendar. The Key Dates on pages 30 & 32 feature the important dates for Venus in this cycle. In the calendar, stars mark the dates with key dates so you can refer to the Key Dates page to find out what is happening.

Join us in the Venus Wisdom Collective to receive guidance on how to sync with Venus to stay anchored in your heart, embody your deeper truth and manifest your greatest visions in these tumultuous times! We will be moving off FB in 2022 so be sure to join our email list.

4 VENUS PHASES: **Reset and Morning Phases**

1) RESET PHASE:

The Queen of Heaven and Earth goes backstage for a long soak in a bath, a costume change and hot date culminating in Divine Union with her Beloved. The Essence of the next journey is conceived. Our heart transitions between the completion of the 19-month journey, actively letting go of all that was created and starting a new cycle. She makes an offering of wisdom back to the Mystery. She knows that the ending contains the seed of the new beginning. She is in motion, traveling into herself to receive the next assignment.

Reset Venus is a knower of thresholds, a bridge-maker and may know how to assist during transitions of all kinds. She is a shapeshifter, one who can feel many different perspectives. Going backwards in reflections brings forth her heart wisdom. She understands how one cycle bridges to the next. She is seeding her Essence here.

2) MORNING STAR PHASE:

The Queen of Heaven begins the Heroine's Journey once she hears the call. Our heart is young, untested, bold. We engage with life and take a risk to create something, perhaps impossible from the view of our conditioning. She begins fiercely and is slowly humbled by facing challenges when things do not go as planned. We are invited to release with as much grace as possible all that stands in the way of actualizing our original creative impulse: habits, addictions, false image, internal and external sabotage. We can keep surrendering all that stands in the way of our authenticity to know more of our Essence.

Morning Star Venus is an initiator and trailblazer. She needs to try lots of ventures and make mistakes to learn. Boldness is rewarded. Discernment is learned. She can have a youthful quality about her, no matter what age. The more she risks and follows the authentic guidance of her heart, the more she shines. She is refining her Essence here.

4 VENUS PHASES:

Underworld and Evening Star Phases

3) UNDERWORLD PHASE:

The Queen of Heaven is shocked by the revelation that she must surrender more than she imagined to become more of who she is. Our hearts deepen as we face the saboteur and some part of our identity gets annihilated. We recognize the need to call our energy home within us, retreat, tuck into our cave to find stillness and hang in the deep. This is a chance to transform our relationship to the dark, the shadow, the exiled and unloved parts of ourselves. We can discover that all the light and love that we crave from others dwells within our innermost being. We can uncover the keys to regeneration.

Underworld Venus is often a healer, medicine person, therapist or shaman. She has had many Underworld experiences to learn the art of rebirth. She emerges on the other side with wisdom and inspiration to show others how to find the topside world again. She may need time to be deeply internal to function. She is not afraid of shadow places and is often navigators of the unseen realms. She is deepening her Essence here.

4) EVENING STAR PHASE:

The Queen of Heaven becomes the Queen of Heaven and Earth. She has cultivated faith during the longest night and knows the magic of Rebirth. Her personal suffering has opened her to compassion for other beings' suffering. As she rises higher and brighter, she demonstrates the depths of her knowing. Our Feminine Essence becomes more mature and socially engaged. She needs a lot of social feedback to calibrate how effectively she is sharing her wisdom. After her heart's mission has come to completion, she shines in celebration, expressing the outer quality of the light she found within her during her Underworld experience. She enjoys the ripening and then releases as much of her wisdom to the world as possible before she fades from the Sky.

Evening Star Venus can inherently understand much about the feminine principle. Her life may prepare her to share it with the world. She is often wise beyond her years. She wants to demonstrate the deep lessons of the Underworld and bring them into the light of day. She may be a teacher or work for social causes. She feels the needs and dreams of the collective. She benefits from a lot of social feedback to stay tuned to her impact on others. She is emanating her Essence here.

VENUS WISDOM

We hope that you find this guidebook to be supportive for syncing with Venus and embodying more of the truth of who you are. Your medicine is needed at this turn of ages.

Having tools to track the cycles, record our experiences, both with the Sky and our inner being, amplifies the power of syncing with Venus.

In the Venus in Gemini cycle, we had many opportunities to re-learn what the Sacred Feminine is. Old models, constructs, beliefs and spiritual practices fell away as we created space for the new experience of being fully embodied humans.

We are invited to approach the Mystery with a beginner's mind and an open heart. Choosing not to know became a new habit. We are showing up to discover more of the truth of who we are now.

In the upcoming Venus in Capricorn cycle, our Sacred Feminine will be empowered to manifest from this deeper, embodied place. Here, she takes her throne and puts on her crown. Her throne is her knowledge of the Earth's intelligence gained through her humbling to nature's principles. Her crown is her cosmic wisdom as an infinite being. She is us.

In this cycle, we are invited to learn the power of saying "NO" to what is not right, claim the full authority of our heart's wisdom, and take responsibility for creating the world we want our grandchildren to live in. We are seeding the New Earth - a culture based on care, interconnection, reverence for life, and the natural world. Together, we will be initiated into the Capricorn Mysteries and discover our role in this Great Turning.

You can find Venus Wisdom blogs that chronicle the Venus cycle at: www.venuswisdom.com.

If you are interested in applying for our HEROINE: Journey of Heart, we begin March 25th, 2022, email connect@venuswisdom.com with the subject line: HEROINE.

Thank you for being so wise and wonderful. Blessings on your journey of heart!

Love,
Sasha Rose and Team Venus Wisdom
